10 Years of The WHN

Hard Hitting News Reaches Journalistic Pinnacle of Moral and Ethical Disregard

In this day of electronic journalism, the survival of the traditional press is under threat.

In light of this, it is with great surprise that the **WHN** celebrates its 10th Anniversary - I mean, everybody said we would be in jail by now...*(of course we did have to recently flee the U.S.)*. Anyway, we at the **WHN** remain dedicated to bringing you, our loyal subscribers....as well as all you other bastards who never pay for this rag..., the very, uhhh, "best" in journalism.

During the last ten years we have brought you shocking revelations, scandalous stories of the rich and famous, as well as warm humanitarian features.

Indeed, through the works of the **World Headline News Charities** we continue to be an axis of good in this increasingly evil world. On a side note our founder and publisher is now ranked by Forbes as the 5th richest person in the world. Our thanks to you all...

**C. Everett Koop Victim of Pathological Cloning Scheme
SEMI-RESPECTED ALBANIAN PHYSICIAN IMPLICATED**

Albania (W^N) The National Institutes of Health (NIH) has announced that it is investigating illegal cloning experiments at the Albanian Medical College. In a 4 (or maybe 5) count indictment, a senior member of the Department of Pathology is being charged with illegal cloning of humans.

The "Son of Dolly" case has particularly shocked the medical establishment since it was not only perpetrated by a respected member of the community but also was directed against C. Everett Koop, the beloved ex-Surgeon General of the United States. In addition to possible abuse of NIH funds, the RJR Tobacco Company has announced that it will sue the as yet unidentified chairman of Pathology....it seems that Tobacco Grant money may also have been used for the cloning.

Surprisingly, the Drs. Koops are not all that upset by the events. While slightly decreasing their speakers fee, the Drs. Koop can now appear at up to 4-5 events at one time thus further spreading the evils of smoking and unprotected sex.

JUST AS WE* THOUGHT! Science Proves Men Have More Brains Than Women

WHN Exclusive! JFK Jr. ALIVE!

Living with Elvis in Toledo

Men Is Brainer

"4 More Ounces!"

Albania (WHN) Since the initial burning of the bra in the 1960 s., an ongoing –often highly emotional (at least on part of the sexes)– battle has existed between the sexes as to who "has the most brains, men or women."** Recently, this testy confrontation between the sexes was scientifically settled once and for all when Dr. Dean Falk (admittedly a male --- but a scuptiously fair scientist) conclusively demonstrated that, adjusted for body size and proportion, men actually have an amazingly large 4 ounce brain advantage over women. Dr. Falk notes that the male grey matter advantage hold true for almost all primates. Interestingly, the only exceptions in the primate world identified by Dr. Falk are naturally monogamous ape species such as the gibbon where male and females have the exactly the same size brain. Further research by Dr. Falk suggests that the extra brain material is responsible for the "enhanced visual-spatial skills" of the male gender.

Dr. Ned Ander-Thal of the Albanian Medical College, personal physician to President Clinton, state that this finding is not surprising. "Why of course men must have more brains and enhanced visual-spatial skills. I mean how else could you keep all those lies straight? I mean you gotta know Miss X from Miss Y from Miss Z. I mean I tell my wife that Thursday is my bowling night...hell, I don t know a bowling pin from a rolling pin. But I do know Miss X from my wife." When asked her opinion, Mrs. (Nina) Ander-Thal simply stated, "Ned will be getting a real close look at a rolling pin – I only hope he s got a thick skull... he s definitely a numb skull."

Not surprisingly, many males are touting their enhanced visual-spatial skills. Clyde [who refused to give us his last name (thus showing his enhanced brain power)] states, "Hell that explains why I don t never ask fer directions. My wife s always nagging and saying, "Why don t yous ask for directions!?" Well, now I know why cuz I got me superior spatial skills. Hell that also explains why I watch lots of TV too. That cuz I got me superior visual skills."

Surprisingly, a number of Albanian feminists (as well as Lifetime-Television for Women Who Hate Men) agreed with the opinions expressed by Dr. Ander-Thal and Clyde. Even Republican presidential candidate Elizabeth Dole echoed the Albanian Feminists unexpected support of Dr. Falk s findings on a recent visit to nearby New Hampshire. "Why I know that Dr. Falk must be right. Ever since Bob started taking that Viagra I have suspected that he has been utilizing his "superior visual-spatial skills" when I m away from D.C. I m just glad that Monica is gone from the Watergate."

Others, however, are less certain. Senator (oops) Ms. Hillary Clinton disagrees with both Dr. Falk and Mrs. Dole. Senator (darn) Ms. Clinton states that "While Bill may use his supposedly superior visual skills to oggle the female interns, he usually doesn t know where he is much less where he stands on a given topic. Furthermore, why don t you ask the Chinese Embassy Staff in Belgrade whether those 'good ol boys' at the CIA have superior "visual and spatial" skills! ". However, on a positive note, Senator (I m sorry!) Ms. Clinton states that it is "...quite apparent that the enlightened voters of New York - regardless of gender - DO have at least 4 oz. more of brains than those backwater jerks in Little Rock and I will be proud to become a native New Yorker in November of 2000!"

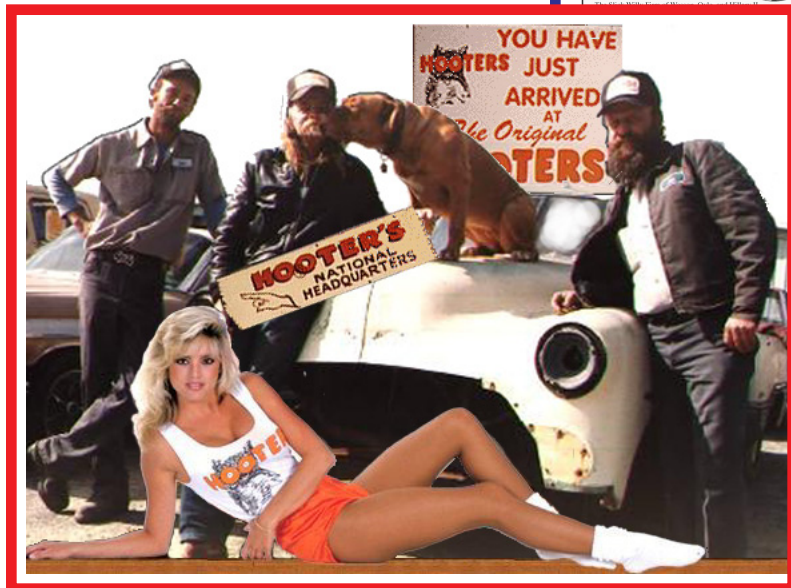

*MAN S UNION MANIFESTO: Article Ia: "Men is brainer than women."
**Note: Surprisingly some data suggests that having brains does not equal having common sense.

Page 2: JFK Jr. Dies due to poor visual-spatial skills!

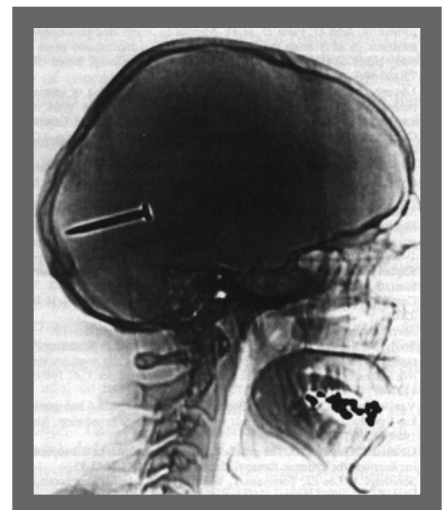

"I am smarter than the average Intern! But don't tell Hillary..."

SARS* Strikes Iraq!

Iraq Victim of American Plague® According to Baghdad Bob

WHN (Baghdad Cafe) According to Iraqi Information Minister Mohammed Saeed al-Sahhaf a particularly virulent strain of **SARS*** has struck the Iraqi military. In an exclusive interview with the **WHN's** Ned Ander-Thal broadcast by AL-The-Zero pirate radio network, Mr. al-Sahhaf, better known as Baghdad Bob, put forth the explanation that this was no ordinary **SARS*** but was in fact a devious plot by the US military to destroy the Iraqi army. *"The infidel devils spew smoke and flame and make our men soil their pants. This evil concoction flies in the face of reason - no infidel could punish a true believer in Sadaam. God willing, we will throw our dirty Kleenexes in their face."*

Is Iraq Surrendering to SARS*

In a surprise admission, Supreme Coalition Commander General Tommy Franks and US Secretary of Defense Donald Rumsfeld admits that the infliction of **SARS*** among the Iraqi troops was in fact caused by the US military. *"Hell yes, we caused SARS*. I mean hell, we whupped 'em!"* stated a surprisingly unabashed Rumsfeld. As a consequence of the US admissions, France has called upon the UN Security Council to force the US to immediately stop the spread of **SARS*** in Iraq and to turn over all oil (and cotton candy) concessions to the French immediately. However, even the French now admit that it may be too late to save the Iraqi military from **SARS***.

Echoing the cries of France, China has condemned the US for the **SARS*** outbreak in Iraq. Speaking for China, Chairman Mao *[newly cloned by the same folks, us, who brought you the new JackieO's; see page 5]* said that China had, and would continue to, do everything possible to stop the spread of **SARS*** among the Iraqi military. However, the Chinese anti-**SARS*** measures up to this point have proven ineffective.

When questioned as to the future of the Iraqi military's **SARS*** victims, Iraqi Information Minister Mohammed Saeed al-Sahhaf sneered, *"God will roast their stomachs in hell at the hands of Sadaam's loyal supporters."* However, despite the rapid spread of **SARS***, Information Minister Saeed al-Sahhaf remains up beat in his belief that Iraq will prevail, *"Let the American infidels bask in their illusion. I triple guarantee you, there is no SARS* in Baghdad. This 'disease' is not worth an old shoe."*

Despite these brave statements, world press coverage has clearly shown an epidemic of **SARS*** amongst the Iraqi military. But is it too late for the rest of Iraq? Numerous reports suggest that **SARS*** has already spread beyond the Iraqi military, with several sources suggesting that even Sadaam may have succumbed to **SARS***.
