Albanian Medical College Buses In New Dean College Degrees Are To Be 'Like A Box Of Chocolate'

Albania (**WHN**) Following a long, exhausting, and expensive search, the *Bubba Gump Employment & Collection Agency* has announced the successful selection and recruitment of a new Dean for the Albanian Medical College. While reports are sketchy, knowledgeable sources state that a highly respected Marine Biologist has been recruited from the southern United States. When questioned about the selection of a marine biologist for the Deanship of a Medical School, Interim Dean Richard Edmonds stated, "Obviously this will require some slight changes in the Medical School curriculum. It is the intention of the new Dean to emphasize shrimp anatomy, shrimp anesthesiology, shrimp biochemistry, shrimp cardiology, shrimp neurology, shrimp pathology, shrimp pharmacology, shrimp physiology, shrimp urology, shrimp virology, shrimp ..."

Rejected Candidate Threatens Lawsuit

'Rasputin' Smith Lures Drugged (i.e., 3 Martinis) John Eaton To Houston Climate of the "Calcutta of America" Major Factor

Albania (**WHN**) With Svengali-like charm and the promise of curing his winter blues, Charles "Rasputin" Smith has lured John "Simpleton" Eaton to Houston, Texas. Dr. Smith is a Texas faith healer at Baylor Medical College who has gained immense influence as a consequence of his skills at drugging and kidnapping naive scientists to Houston.

However, Dr. Smith's evil influence on naive scientists, as well as his highly admired personal debauchery, eventually provoked a noble scientist to attempt to murder him at a recent Gordon Conference in Ventura, California. First, ~~Dr. Scott~~ (err, an unidentified Albanian Scientist--the **WHN** continues to maintain its pledge to protect the confidentiality of its sources) Citizen X attempted to poison Rasputin Smith; this failed when it was discovered Texans liked chili peppers. Citizen X then tried to shot Rasputin, but discovered that Texans like shots of whiskey. Finally, Citizen X attempted to drown Rasputin Smith, but the man swam through the river of tears produced by X. Rasputin Smith still lives.....and naive scientists the world over should tremble in fear.

'Take That Albanian Med' **Angered Candidate Threatens College**

Albania (**WHN**) An unidentified candidate for the Deans post at AMC has reacted violently to his removal from the "Short List". Following an intense meeting with the AMC selection committee the obviously distraught candi-

date was caught leaving the meeting. Captured by WHN staff photographer Anvil Adams, the candidate is quoted as saying, "My theory is that anybody relatively qualified for this position is automatically disqualified!" Knowledgeable sources close to the inner circle of the selection Committee states that this "Theory of Relativity" is utterly ridiculous....but probably true."

TWINS? Separated At Birth?

MEDICAL NEWS!

Jeffrey Ross Sues Dow-Corning For \$2.3 Million **Cites Negative Impact Of Breast Implants!**

Albania (**WHN**) Jeffrey S. Ross, highly respected Chair of the Department of Pathology and Laboratory Medicine at the Albanian Medical College, today announced that he is joining the ever growing list of individuals suing *Dow-Corning* over silicon breast implants. Dr. Ross stated that he had the implants done to "counter negative self-esteem" and to take advantage of the National Institutes of Health Womens Funding in Science Program (**WFSP**). However, after the implantation of the "dastardly silicon bags of death" Dr. Ross was informed that chromosomal analysis was now being required of all **WFSP** applicants. Mr. Ned Ander-Thal, lawyer for Dr. Ross, stated that chromosomal testing had never been a requirement for other NIH programs such as the **WASP** funding project. Lawyer Ander-Thal further said that "This new regulation just represents one more intrusion by the Federal government into the private lives of its citizens." While some experts state that Dr. Ross does not have a leg to stand on, Lawyer Ander-Thal countered by, "Oh yea, just look at those babies..." Several onlookers were observed to whistle in amazement when presented with the bare evidence.
