## Charles Darwin Turns the Big 188!

Albania (**WHN**) Charles Darwin, father of the *Theory of Evolution*, turns 188 on February 12. In honor of Dr. (a *honorary degree*) Darwin, the Albanian Zoo is giving free admission to the Primate House. In addition to the zoological celebration, Dr. Ned Ander-Thal of the Albanian College of Medicine will be providing free screening for residual primate blood in all interested citizens (see related story on Page 2).

To demonstrate the effectiveness of this high tech procedure, Dr. Ander-Thal analyzed the hematologic tree of **WHN** Editor Mark Scott. Shown at right is the phylogenetic summary of Editor Scott's family tree. Perhaps not surprisingly (considering our geographical proximity to the Appalachian Mountains) Editor Scott is closely related to a number of famous individuals...apparently even including his wife Wendy-Sue. Upon hearing of these relations, Editor Scott uttered, "My god, am I really that close of a relative to Bonzo, Cheeta AND Newt? That's sooo cool!"

The new found relatives to Editor Scott responded in many ways; however, a typical response was given by the Artist Formerly Known As Prince, who upon hearing of his relationship to Editor Scott changed his name to an unpronounceable symbol (In ancient Sanskrit the symbol is thought to mean, "I am not his brother..I am only a very distant relative..please forget that I am in any way related to him! May god have mercy on me".

### Rare Photo of the H.M.S. Beagle

From 1831 to 1836, Charles Darwin traveled on the *H.M.S. Beagle* and formulated his theory of evolution entitled:

*On the Origin of the Species by Means of Natural Selection - The Preservation of Favored Races in the Struggle for Life*

By all accounts, this voyage was very uncomfortable and flea ridden.

## Do You Have A Monkey's Uncle In Your Family Tree? TEST YOUR LINAGE IN THE WHN "I LIKE BANANAS" EQ (EVOLUTIONARY QUALITY) TEST

- Question 1.** *Your favorite Woody Allen Movie is:* A) Purple Rose of Cairo; B) Bananas; C) Hannah and Her Sisters; D) Crimes and Misdemeanors; E) Sleeper.
- Question 2.** *Your favorite daiquiri flavor is:* A) strawberry; B) banana; C) grapefruit; D) passion Fruit; E) codfish
- Question 3.** *If you were stranded on a deserted island without food, would you want:* A) a six pack of cheap beer; B) a bunch of bananas; C) the autobiography of Richard M. Nixon; D) audio tapes of the Clinton-Dole Presidential Debates; E) SPSF 5 Sun Block.
- Question 4.** *Ross Perot is:* A) America's premier politician; B) bananas; C) President of the United States; D) future President; E) President of the George Bush Fan Club.
- Question 5.** *Your favorite uncle's favorite food from the following list is:* A) lima beans; B) bananas; C) moldy rice; D) dog food; E) raw eggs.
- Question 6.** *What does Chiquita mean:* A) hey, babe; B) banana; C) a type of gum; D) a yellow submarine; E) failure to complete a Chi-Square statistical analysis.

**Scoring:** If you answered **B** to 3 or more questions, you are a product of Darwinian evolution: if you answered **B** to 2 or fewer questions, you have a creative mind. If you could not answer any of the questions, spontaneous generation --or more likely blond hair -- is the likely explanation.

## There Are No Monkeys In My Family Tree!

Albania (WHN) Ms. Dawn Guinan is proud to announce that extensive hematologic screening (conducted by the eminent AMC Hematologist Dr. Ned Ander-Thal) has demonstrated that no traces of primate blood were found within her.\* Ms. Guinan would like to further state that this should put to rest any foolish claims about her evolving from monkeys.

(WHN Disclaimer) In an exclusive interview, Dr. Ander-Thal stated: "Considering that Ms. Guinan has not recently received a cross species blood transfusion, this finding is not too surprising."

Ms. Guinan, "I think this is proof enough that I am human and evolution does not occur."

## Investigation Into The Monkeys Role In AMC Administration

Have you seen these AMC Administrators? If so, call 1-800-MON-KIES

Albania (WHN) Federal Investigators are currently probing what the role the 1960-70's musical group "The Monkees" has had in the administration of the Albanian College of Medicine. A source close to the investigation, Dr. Ned Ander-Thal, states that it is quite apparent that significant "monkey business" has been going on. Stated Dr. Ander-Thal, "We are only waiting for the results of the

blood tests...then we will know!" Administration Spokesprimate, Che T. Ah would only comment that, "Hey, Hey we're not the monkeys they're looking for." AMC Counsel I. Rob. M. All has further stated that, "I'm a believer, the AMC administration is innocent of any monkey involvement. The current mess evolved all by itself without any help from those Pop singers. This investigation is being conducted by a bunch of baboons and boy do I know baboons...have you seen my brother-in-law?"
