Student Militia Threatens AMC Faculty “GIVE ME MY DEGREE OR ELSE...”

Militia leader “Commander Peg” meets with a **WHN** reporter in the Albanian Jungle. Also shown is Che Joe who is spreading the rebellion to the Wadsworth Brain Institute.

Albania (**WHN**) Unrest continues to well up in Albania as students at the prestigious Albanian Medical College threaten the faculty with reprisal unless their demands are met.

The leader of the student revolt, going by the code name “Commander Peg”, recently met with the **WHN** in the Albanian jungle (jim). According to Commander Peg, the student unrest has arisen from too many demands on the students. As stated by Commander Peg, “Why I don’t get more than 4 hours of sleep a night. They actually expect me to write a darn thesis, give a talk and eat the cafeteria food...”

As a consequence of these inhuman conditions, Commander Peg has rallied the student body of the Albanian Medical College around the slogan “Hey, what do they think we are...escargot?” Despite the slogan, the AMC students have been eager to revolt against the College faculty and are now engaged in secret talks with the College Administration.

Mr. Don Corleone, Esq., Official AMC spokesperson, states that these talks are progressing satisfactorily for both the students and the administration. As stated by Mr. Corleone, “We tank we’s e can come to a mutualatality acceptable arrangement...dey gets der diploma, hey its only gonna cost us a few sheeps, and we, shall we say, stonewall da faculty into submission.”

BIG SCREEN TVs COME TO AMC

Albania (**WHN**) As part of the “Electronic Revolution & Campus Beautification Campaign”, the **Albanian Medical College** is installing 72” screen televisions in all classrooms. According to Mr. Don Corleone, Esq., Official College Spokesperson, these TVs will ultimately save the College “a fortune”. However, the AMC Faculty Senate has expressed disapproval of the purchase: “How the hell are the students going to pay attention to our lectures...hell most of the students fall asleep in class already. They could better spend this money by giving us faculty a decent pay raise!” While not giving specifics, Mr. Corleone states, “We’ze don’t tank dis faculty unrest will be no big problemo.”

In further news, the **Albanian Medical College** “Campus Beautification Campaign” is progressing nicely. Work on the **Executive Health Club** and **Student Leisure Lounges** are approaching completion and await only the arrival of the decorative rock for the future flower (lily) beds. This work is scheduled to be completed early in August.

Graduate Program At AMC to Be Restructured!

Albania (**WHN**) Due to the recent student unrest (see story page 1), the Administration of the Albanian Medical College (photo, right) has commenced a massive reorganization of the College. While rumors abound as to the impending reorganization, confidential sources from within the students and administrators negotiating the plan have outlined to the **WHN** several of the proposed changes. The **Top Ten Changes** requested by the students (S) and administrators (A) are:

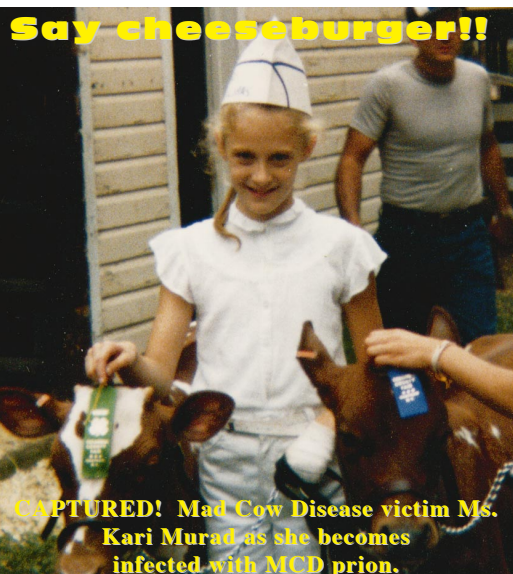

10. Free pizza and beer during all classes (S)
9. Large screen TVs with full cable in all lecture rooms (S)
8. Student offices with full secretarial support (S)
7. Professional note takers (S; as per Med students)
6. Professional test takers (S; as per Med students)
5. Guaranteed 3.75 cumulative G.P.A. (S)
4. Ballon tricks by the faculty (S)
3. No more boring lectures (S)
2. Public stoning of boring Professors (S and A)
1. Public stoning of all Professors (A)

Administration sources, speaking on conditions of anonymity, have confirmed most of these changes. Indeed, according to our source, "The college is always looking for ways to save money. When we looked at the students demands for large screen TVs we realized we could substitute these for the actual Professor. While this solved the students problems, it did nothing for the administration, we were stuck with all these professors who cost us money. So how to recover the direct and indirect costs of the now unnecessary faculty? Retirement...? Naw, that still costs money....it's like throwing money down the drain....**THROWING?** That's when it came, we could clean up the college grounds, get rid of the faculty, and make money by having a **PAY-PER-ROCK** public stoning of the faculty by the students, administrators and any interested civic minded citizens. Hey, death benefits don't cost nearly as much as 20-30 years of retirement."

When questioned about these plans, Mr. Don Corleone, Esq., official College spokesperson, stated that "Whatever da changes will be, dey will be implementated as soon as da pizza ovens, da big screen TVs, and da decorative rocks are delivered to da college. Once dey is here, da reorganization is basically done.....except for da planting of da lillies."

"Zerk, you idiot!
You've mixed incompatible degree programs in the AMC terrarium!"

CAPTURED! Mad Cow Disease victim Ms. Kari Murad as she becomes infected with MCD prion.

Modern Medical Miracle: Victim of Mad Cow Disease Recovers!

TO RECEIVE PH.D. DEGREE AT THE ALBANIAN MEDICAL COLLEGE

Albania (**WHN**) Ms. Kari Murad, the only proven victim of Mad Cow Disease (MCD) in the United States, has defied medical science by surviving the dreaded disease. Surprisingly, MCD has had only "mild" effects on Ms. Murad's cognitive functions. Perhaps the most obvious effect of Ms. Murad's bout with MCD is dementia; as demonstrated by her selection of the **Albanian Medical College** for pursuit of a doctorate degree. But alls well that ends well. On July 21, 1997 the brain ravaged Ms. Murad became the the brain ravaged **Dr. Murad**.

Dr. Murad, in accepting her academic degree, stated: "I thank the Committee for endowing me with this award. I will use my tenure as Ms. AMC to fight for world hunger and an end to all peace!.....moouoo"
