United States Treasury Announces New Fifty

“It’s a Dawn of A New Era” Says Secretary

Albania (**WHN**) Each year over one billion dollars in counterfeit **F**ifties are produced. In an attempt to prevent counterfeiting of **U**nited States **C**urrency, the Secretary of the **T**reasury **H**as unveiled **A** new fifty dollar bill. Several anti-c**O**unterfeiting features are built into the new bill. Foremost **a**Mong these is the new **P**icture. Replacing U. S. Grant is an “age to cash” matched **P**hoto; i.e, as the bill ages, so does the photo. This has **t**W**o** advantages: 1) count**E**rfeiteers are unsure as to “next **Y**ears look” and 2) unlike today’s dollars, this **B**ill actually apprec**I**ates in value **A**ND is gua**R**anteed to gai**N** \$1 in value every year for **T**HE foreseeable future.

How **D**oes the “new bill” affect the criminal mastermin**D**? To answer this question, the **WHN** talked to Mr. Ned. **A**nder-**T**hal who is currently serving time in the Clifton Park Maximum Security **L**ockup **F**acilit**Y** for paying his **WHN** subscription (*still a great deal at only \$1, 673, 891.⁹⁹ per year!*) with countefeit fifties. According to Ned the old bills featuring U.S. Grant were very easy to produce, “*Hey all ya needed was da right computer --weez yoused a Mac -- a scanner and a few shreds of paper. But hey, nowse dey got dis Dizzy blond with a mug like a....wells I is A gentle Man and I’se don’t wanna say nut’in dat wills get me more time in da joint. Lets me jus say it is a face dat my own mudder **W**ould belch at...*” Perhaps luckily for Mr. **A**nder-**T**hal, the model used for the **N**ew face on the fifty was until recently employed as a prison guard at the Clifton Pa**R**k Maximum Security **L**oc**K**Up Facility.
