Drs. Charles Darwit and Ted Kaczynski on Mitochondrial Evolution:
"It's a ticking time bomb".

Albanian Scientist Claims Evolution is Ticking Time Bomb

Albania (**WHN**) Fear is running rampant amongst the populace of Albania following the pronouncement by Drs. Charles Darwit and Teddy Kaczynski of the *Albanian Medical College* that evolution is rampant amongst the masses. According to their article published in **Albanian Sciences, Fables and Such**, the "rampant evolution" occurs, in part, because of "the indiscriminant and unplanned mating of the populace that the government continues to allow to occur".

Drs. Darwit and Kaczynski claim that even with the cloning of humans (initially only docile college faculty will be produced; see **WHN Issue 41**) pioneered by their colleague Dr. Uri Flockem, genetic rearrangement/evolution will not and can not be stopped. As stated by Dr. Darwit, "Even now I feel my telomeres shortening and Y-chromosome mutating.....and only God knows what evil my mitochondrial DNA is up to (see photo left)." Coauthor Dr. Ted Kaczynski (contacted in Sacramento where he is attending a government sponsored meeting) states, "I have spent my life studying evolution, and unless I bomb this one, I think immoral scientists and the government are behind it all. Technological and genetic evolution caused by these sources must be abolished. Consequently I have established the **Kaczynski Institute of Montana** with hopes of eradicating this scourge of mankind...or at least what use to be mankind-- after all you never know how much evolution has occurred in the last 5 minutes...that US Attorney looks unhuman to me. I'm sane, really I am...can I have my underwear back?"

NIH: Power & Logic

American Science Continues On A Safe Course

"An emerging need for suitable red cells for transfusion has evolved due to advances in transplantation, surgery, and treatment of blood diseases. Compatibility of blood limits the supply and hemoglobin-based RBC substitutes have not met expectations for efficacy and safety.

This proposal, utilizing PEG-modified erythrocytes, opens a new area of biology and transfusion medicine. The possibility of camouflaging antigens on the RBC could markedly increase the number of units of blood available for transfusion. More importantly, the ability of modulating the immune response to cells may provide insights for transplantation biology, including allo- and xeno-organ transplants. The impact of these studies on biology will be significant if these agents prove safe and efficacious."

Pyramid Schemes Bring Albanian Medical College to the Brink of Bankruptcy

WELL RESPECTED AMC FINANCIAL PLANNERS DUPED (?) BY "NEW AGE MEDICINE" HUSTLER

By: Irish Mike Collins and WIN Business Reporter I. Rob M. All

Albania (WIN) The Albanian Medical College Department of Internal Financial Misuses and Inappropriate Spending of Other Peoples Money (IFM&ISOPM) uncovered a plot to sell the College to the Do it Yourself HMO "I'm Ok, Your OK" Corp. The Plot was discovered by the IFM&ISOPM during a routine check of Ralph's™ happy hour menu. The Plot entailed the secret sale of all AMC assets to the allegedly pyramid scheme company MYWAY, a subsidiary of the Frank Sinatra Corp. (Reporters note: This company is in no way connected to the legitimate pyramid scheme known as AMWAY®.) Once the sale was completed, MYWAY would in turn grossly inflate the assets value of the College for "sale" to the Do it Yourself HMO "I'm Ok, Your OK" Corp. According to the plan, the Financial Officer of the Do it Yourself HMO "I'm Ok, Your OK" Corp., Mr. P.T. Barnum, the corporation would then sell the shares on a first come first served fashion to those "suckers who are born every minute at the Albanian Medical Center".

The IFM&ISOPM report on the attempted purchase goes on to reveal that the initial meeting took place between MYWAY Vice President Milo Mindbender, who also founded So You Call This Medicine Industries, and several distinguished members of AMC's Financial Planning Group. When contacted, IFM&ISOPM Spokesperson Bonnie Fife (no relation to Barney) said, "The group met in MS - 227 at 1:00 Tuesday and spent the next two hours going over the plan. They were about to strike a deal when the MS Building air conditioning unit was accidentally turned on. This sent the members looking for fresh air. When the scoundrels returned to MS-227 the IFM&ISOPM, following their investigation at Ralphs™ (3 - 4 drinks and a look at the menu),

was there to stop the deal."

When asked, the AMC Financial Planning Group Members had no recollection of any meeting with a Mr. Mindbender or of the budget for the Graduate Studies Program. Mr. Tony 'Da Blackjack' Corlato states, "We was duped and if you'se don't believe dat see da CEO - He's our mouthpiece...got it?". When WIN reporters finally caught up to Mr. Mindbender, who has been on permanent vacation on the Caribbean Island of Tobago, his only comment was "Hey Cabana Boy, enough with the chit-chat and bring me another gin and tonic, minus the tonic, capeeche."
