Presidential Limo: Viagra™ Powered?

Ken Starr Claims President Is Drug Addict? Subpoena Pfizer Pharmaceutical Company Executives

Washington and Little Rock (WHN) Based on secret testimony from Linda Tripp and Monica Lewinski, Ken Starr unveiled his most shocking claims to date against the President of the United States. Starr claims that Clinton eagerly served as a guinea pig for Viagra™ and that his many reputed liaisons are the result of an addiction to Viagra® - "a drug reputed to cause PDS and it's associated irrational behavior."*

* Starr states that he is drug free and has never suffered from Pelvic Discomfort Syndrome (PDS).

m m m
 ... ahhh

yea.. "blood flow enhancing" drug from Pfizer Pharmaceutical. As Mayor-Little BIG Richard of Viagra Rise's (*Falls* no longer seems appropriate...) stated, "We are not only the 'first' honeymoon capital of the USA, we are also the 'second' honeymoon capital of the USA...and by that second honeymoon some of the fella's need a little aahhh... pep pill. In addition to the Falls I also think it is fair to point out that we also have a big penal facility."

Viagra™ Rises is not alone in this mad "rush of excitement". In a related story, the Mormon Church announced that the miracle of Viagra™ has now made it possible to consider the reintroduce polygamy. According to Church Elder Jedidiah Smith, age 92, "We only got rid of it (polygamy) because us older fellas were having ahhh...well, problems with our youngest wives and err...associates." Miss May, age 72, a close "associate" of Elder Smith, concurred but stated that a chorus of "Hallelujah" can now be heard throughout the Tabernacle -- "And it ain't the choir."

But not all Mormons are as positive about the consequences of Viagra™ pills or Communion wafers. Indeed

several of the more upright members of the community have forcefully argued against Viagra use.

What fuels this frenzy? Scientific research conducted by the drug's manufacturer demonstrates the simple scientific principles (see photo at right...not left) underlying the action of Viagra™: "An increase in hydraulic pressure results in increased.....eerrrr... lift?"

EDITORIAL

I hereby call to order this meeting of the **AMC** Administrators Club..... but first, does any one care for more of this scrumptious **Faculty** carrion?

Obituaries of Note:

Humpty Dumpty Dead!

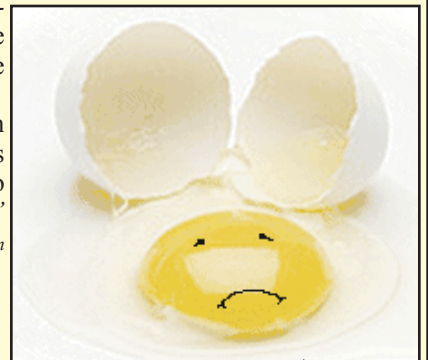

Albania (**WHN**) Noted English Egghead/Pundit Sir Humpty Dumpty died unexpectedly as a consequence of a fall at Poo-Leigh, his country home in France. Despite desperate heroic emergency measures by the same crack team of French physicians who attended Princess Di, Sir Dumpty could not be saved by any of the tools of modern medicine or poultry farming.

Sir Dumpty was best known for his work on the **benefits** of cholesterol (*High Cholesterol -- A Cure for the High Costs of Old Age Pensions*) for which the Queen bestowed Knighthood. Sir Dumpty's scientific accomplishments came despite a serious speech impediment. Indeed, as "Hump" liked to say, "If you can't yolk about yourself you'll always be trapped in your shell. I believe in a sunny disposition." Sir Dumpty will be buried by all the Queens men in the *Royal Compost at Windsor*.

Donations may be made on behalf of Sir Dumpty to the **WHN's** "Flightless Chicken Fund"*, c/o Associate Editor Guido "Noodles" Gambino, Caymans Islands. *This is an exempt tax-exemption.*

*Now you know why the chicken crossed the road -- it couldn't fly!

Help Us Help Them!

Sir Humpty Dumpty - ~~Dead~~.

WHN Renews Commitment to Macintosh.

GATES CANCELS LIFETIME SUBSCRIPTION

JOBS DONATES 20 NEWTONS

Albania (**WHN**) In a move to bolster the flagging spirits of Macintosh fanatics (who use to be everywhere but are now only here and there), the **WHN** announced its continued support of a Macintosh ONLY publishing house. However, this brave commitment to the Mac has not been without serious consequences.

Mr. Bill Gates, a lifetime subscriber to the **WHN**, has announced that he will cancel his subscription and "...if sent, it will go unread!". Furthermore, despite the **WHN's** eloquent plea to Steve Jobs to donate additional publishing hardware ("Hey Stevie, I really, really want that \$5,900 G3 Powerbook, please gimme, gimme...."), Apple response was less that anticipated (a lousy crate of 20 recently discontinued Newtons which are now worth about a buck fifty each...). Hence, as has happened so often before, Apple has failed to truly appreciate and support one of its largest consumer bases.

Despite these disappointments, the **WHN** remains committed to the Mac.

So to all you Window™ users we say "Hey, looks like you're missing a .dll file and you've got a corrupted registry with a fatal Bios error ha ha ha ha ha... Suckers."

Macintosh

Faster than Pentium II/300.

Faster than Pentium/Anything.
