### JUST AS WE\* THOUGHT! Science Proves Men Have More Brains Than Women

Albania (WHN) Since the initial burning of the bra in the 1960's, an ongoing —often highly emotional (at least on part of one of the sexes) battle has existed between the sexes as to who "has the most brains, men or women." Recently, this tenuous confrontation between the sexes was scientifically settled once and for all when Dr. Dean Falk (admittedly a male — but a scupulously fair scientist) conclusively demonstrated that, adjusted for body size and proportion, men possess an amazingly large 4 ounce brain advantage over women. Dr. Falk's research shows that the extra grey matter advantage hold true for almost all primates. Interestingly, the only exceptions in the primate world identified by Dr. Falk are nowalkers of the same species such as the gibbon where male and females have exactly the same size brain. Further research by Dr. Falk suggests that the extra brain matter is responsible for the "enhanced visual-spatial skills" of the male gender.

Dr. Ned Ander-That of the Albany Medical College, personal physician to President Clinton, state that it is not surprising. "Why of course men must have more brains and enhanced visual-spatial skills. I mean how else could you keep all those lies straight? I mean you gotta know Miss X from Miss Y from Miss Z. I mean I tell my wife that she's my bowling night...hell, I don't know a bowling pin from a bowling ball. Put I do know Miss X from my wife." When asked her opinion on (Ned) Ander-That simply stated, "Ned will be getting a real close look at a rolling pin. I mean he's got a thick skull...he's definitely a numb skull."

Not surprisingly, many males are touting their enhanced visual-spatial skills. (Ned) Ander-That to give us his last name (thus showing his enhanced brain power) states, "I'll tell that explains why I don't never ask for directions. My wife's directions are terrible and saying, 'Why don't you ask for directions?'" Well, now I know why I never ask for directions. I mean she's got a thick skull...he's definitely a numb skull."

"4 More Ounces!"

Surprisingly, a number of Albanian feminists (as well as *Lipshon-Intelligence for Women Who Hate Men*) agreed with the opinions expressed by Dr. Ander-That. Even Republican presidential candidate Elizabeth Dole echoed the Albanian Feminists' unexpected support of Dr. Falk's findings. "I'm glad that Dr. Falk must be right. I mean I've started taking that Viagra? I have suspected that he has been utilizing his superior visual-spatial skills" when I'm away from D.C. I'm just glad that Monica is going to be a woman."

Others, however, have disagreed. (Ned) Ander-That. Senator (oops) Ms. Hillary Clinton disagrees with both Dr. Falk and Mrs. Dole. "I'm glad that Dr. Falk must be right. I mean I've started taking that Viagra? I have suspected that he has been utilizing his superior visual-spatial skills" when I'm away from D.C. I'm just glad that Monica is going to be a woman."

"I am smarter than the average idiot. But don't tell Hillary..."

## Women Laboratory Staff Cry Fowl\*:

### Claim THEY Are More Intelligent Than Men!

### WHN Set To Investigate Claims of Irresponsible Journalism

Albania (WHN) Recent reports in the scientific literature demonstrate that men enjoy a substantial (4 oz!) superiority over women when brain size is adjusted to body mass [see: Falk, D. 1999 Sex differences in brain/body relationships of Rhesus monkeys and humans. *J Hum Evol.* 36(2):233-8]. However, these claims have prompted a significant outcry from the female readers of the WHN. As a consequence of these concerns (mostly our concerns about loss of our female subscription base...and laboratory productivity...and well, also maybe my home life....), the WHN has appointed a Blue Ribbon Panel of Experts to evaluate Dr. Falk's claims. We hope - I mean really, really, really, hope - that the findings of this Committee will lay to rest the nagging..., err, I mean thoughtful, ahhh...concerns, yeah, concerns voiced by our female readers and the Editor's wife.

\*Well, they are Chicks, Right?

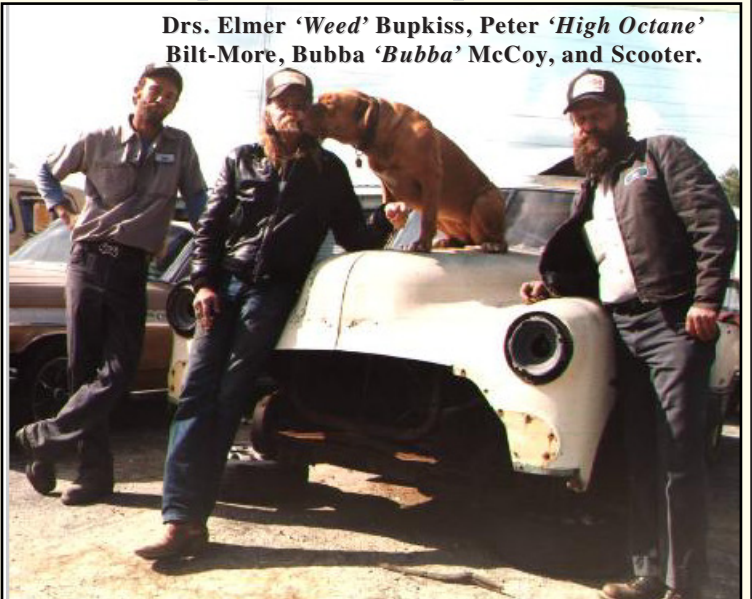

## WHN Appoints Crack Group Of Experts To Settle Gender Brain Size Controversy

Albania (WHN) Bowing to concerns raised by our faithful female readers, the WHN has impaneled an ad hoc committee of experts to review the controversial findings of Dr. Dean Falk. Appointed to the panel are Drs. Elmer 'Weed' Bupkiss, Peter 'High Octane' Bilt-More, Bubba 'Bubba' McCoy, and Scooter.

Meetings are scheduled to commence real soon at the *Hoater's Conference and Beach Volleyball Center*. According to Dr. 'Bubba', evidence to be examined by the Committee includes the 1999 Dallas Cowboy Cheerleaders®, Snap-On Tools® calendars, and a deck of playing cards purchased during a midnight 1987 visit to Times Square by 'Weed'.

Findings of *The Committee* will be published sooner or later -- depending on the beer supply and the 'evidence' supply.

## Blue Ribbon Brain Panel Reports Findings: "Men Is Brainier Than Women!"

Albania (**WIN**) Following an extraordinarily "interesting" meeting (held at the elegant *Hooter's Conference and Beach Volleyball Center*) the Blue Ribbon Gender Brain Committee (BRGBC) has issued its findings (see **FINAL REPORT** at right). Dr. Elmer 'Weed' Bupkiss, Chair of the BRGBC, states, "That Dr. Falk is one darn smart fella, he's got probably at least 8 more ounces of brains than most gals. It's darn hard to argue with No-Bell science like that." Similarly Dr. Bubba 'Bubba' McCoy felt, "It is quite clear that because of the neurological deficit of the weaker sex, that a woman's place is in the house."

Surprisingly, despite the abundance of evidence in support of Dr. Falk and the BRGBC Report, an argumentative Hillary Clinton has voiced vehement opposition to the Committee's findings as aired by 'Bubba', "A women's place is not in the House, it is in the Senate!"

### HOW TO BE A GOOD WIFE

Have dinner ready. Plan ahead, even the night before, to have a delicious meal on time. This is a way of letting him know that you have been thinking about him and are concerned about his needs. Most men are hungry when they come home and the prospect of a good meal is part of the warm welcome needed.

Prepare yourself. Take fifteen minutes to rest so that you will be refreshed when he arrives. Touch up your makeup, put a ribbon in your hair and be fresh looking. He has just been with a lot of work-weary people. Be a little gay and a little more interesting. His boring day may need a lift too.

Clear away the clutter. Make one last trip through the main part of the house just before your husband arrives, gathering up school books, toys, paper, etc. Then run a dust cloth over the tables. Your husband will feel he has reached a haven of rest and order, and it will give you a lift too.

Prepare the children. Take a few minutes to wash the children's hands and faces (if they are small), comb their hair, and if necessary change their clothes. They are little treasures and he would like to see them playing the part.

Minimize all noise. At the time of his arrival, eliminate all noise of the washer, dryer, dishwasher or vacuum. Try to encourage the children to be quiet. Be happy to see him. Greet him with a warm smile and be glad to see him.

Some don'ts: Don't greet him with problems or complaints. Don't complain if he is late for dinner. Count this as minor compared to what he might have gone through that day.

Listen to him: You may have a dozen things to tell him, but the moment of his arrival is not the time. Let him talk first.

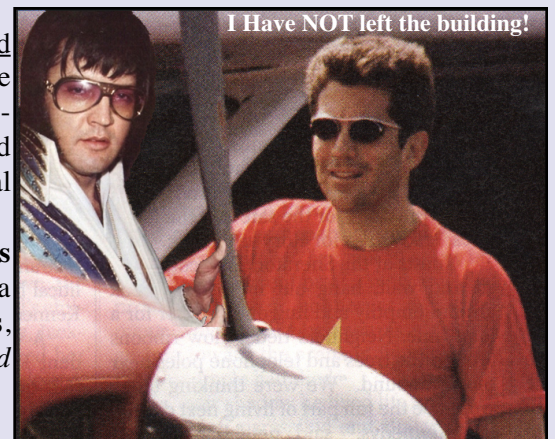

Make him comfortable. Have him lean back in a comfortable chair or suggest that he lie down in the bedroom. Have a cool or warm drink ready for him. Arrange his pillow and offer to take off his shoes. Speak in a low, soft, soothing and pleasant voice. Allow him to relax and unwind.

Make the evening his: Never complain if he does not take you out for dinner or to other pleasant entertainment. Instead try to understand his world of strain and pressure, his need to unwind and relax.

The goal: Try to make your home a place of peace and order where your husband can relax in body and spirit.

## JFK Jr. Not Dead: In Seclusion With Elvis!

Albania (**WIN**) The **WIN** has obtained exclusive evidence that JFK Jr. did not die in the plane wreck off Martha's Vineyard. Photographic evidence taken 3 days after the reputed crash clearly shows JFK Jr. in deep discussions with Elvis at the Toledo, OH airport. Rumors persist that Elvis and John-John are about to begin a nation wide comeback tour as a musical group named **Afterlife**.

Despite photographic evidence, the musical group the **Dead Kennedys** claims John-John is dead. Bobby, a spokesman for the **Dead Kennedys**, states, "If John-John wasn't dead he'd wanna be a **Dead Kennedy!**"

**HOWEVER, PHOTOS DON'T LIE.**

**GREAT QUOTES: Q:** "Isn't a **Dead Kennedys** concert on 22 November [anniversary of JFK's assassination] in rather bad taste?" **A:** "Of course. But the assassinations weren't too tasteful either." - East Bay Ray interviewed in 1979 by the *Vancouver Sun*.
