## Toto, I Don't Think We're In Kansas Anymore!!! Kansas EduKation Commission Declares Evolution Unscientific and Unfit For Study

Topeka (**WHN**) Demonstrating the wisdom we've come to expect of American politicians, the Kansas Board of EduKation has recently decreed that the "unproven" Theory of Evolution will no longer be a required science subject. Citing a lack of valid scientific evidence,

EDUCATION COMMISSIONER IMA SUE PIED

Commissioner Ima Sue Pied has led the crusade against evolution: "Why all they have are a bunch of fossils and DNA evidence. I have yet to see a live Neanderthal in the Topeka Zoo

[see shocking story Insert] and those O.J. jurors showed what a bunch of silliness that DNA stuff is. Heck, the only thing monkeys are good for is to make them fly and scare little girls."

Despite a few lonely cries of outrage, the EduKation Commission is only representing the opinions and scientific evidence supplied by the citizens of Kansas. Indeed, long time Kansas resident Dorothy expressed support for the move. "Why I know that none of my Uncles are monkeys. Well, I know that Auntie Em says uncle Bert is a jackass but that's different. However, I have been to New York and have seen those wicked flying monkeys and I'm just sure that they are not related to anyone I know back in Kansas."

TYPICAL KANSAN: DOROTHY

Dr. B.G. Marvel of the *Albanian Medieval College* (AMC) has, at the request of the **WHN**, conducted in depth studies in the state of Kansas regarding evolution of the anti-evolution movement. According

THE AMAZING DR. MARVEL OF THE ALBANIAN MEDIEVAL COLLEGE MEETS DOROTHY OF KANSAS

to the **WHN** sponsored study of Dr. Marvel, "Kansas has not evolved at all over the last 140 years since the publication of Darwin's Theory of Evolution [1859] -- God Bless It. Hence

this proves that evolution does NOT occur!"

Despite the abundant evidence of the unscientific basis of the theory evolution, some citizens refuse to accept the theo-illogical basis of the Theory of Spontaneous Creationism. Mr. Louie Pasteurization of lovely Wichita Falls states, "I've seen no clear paper, e-mail, or donkey trail showing the requisition of Adam's rib for the creation of women".

While shocking to many, we at the **WHN** applaud the wisdom and hind (i.e., butt headed) sight of the Kansas Board of EduKation. We believe that an educated populous is a dangerous populous while an EduKated public is an easily manipulated public.

## Darwin, Australia: City In Crisis! Who Are We And Who Should We Be Cry Embarrassed Australlians!

Darwin, Australia (**WHN**) Driven by the revolution (or, according to some, involution) in education spearheaded by the Kansas Board of EduKation, Australians in this northern Australian port city are questioning whether the city should be renamed. According to Miss Epi Anthroboth, the continued use of the name of Darwin is miseducated, sacrilegious and offensive to the "beer guzzling, but God-fearing, citizens of Australia and our sober, but also God-fearing, citizens of the great American state of Kansas". In a town meeting held at the *Foster's Lager® Beer and Town Hall*, Miss Anthroboth states that a petition demanding a name change for the city of Darwin - signed by over 20 Australians! - has been sent to the Australian Parliament. Miss Anthroboth states that not only does she fear "the vengeance of God", but she is also afraid that the Kansas Board of EduKation will delete the City of Darwin from the Kansas geography book.\* This, according to Miss Anthroboth "...could lead to a massive decrease in tourism and the virtual collapse of the Australian economy. Why just look at the decimation of the Canadian economy following the release of *South Park - The Movie*" [in which a morally upright South Park, Colorado and the good ol' USA declares war on the ape-hugging, foul-mouthed, heathens inhabiting Canada - which Miss Anthroboth points out also teaches evolution in their schools!]. Amongst the suggest replacement names are: Adams Rib, Elvisville, Lemarck, Re-Eden, De-Leakeyed, and Bob.

Opponents of the name recall petition, in their occasional moments of sobriety, state that they are convinced that the petition generated by Miss Anthroboth is "fakery - fakery most foul". Spokesman Buddy Hue Manty flatly stated that "This petition thing is false - I know for a fact that there ain't more than 15 Aussies who can even write...or maybe that's left. Oops, g'day mate it's time for the pub to open."

\*Actually the Kansas Book of Geography already fails to even mention the continent of Australia - in part due to their beer guzzling habits and in part due to the fact that very few Kansans ever go west of Lamar, Colorado, east of Kansas City, Missouri, south of Oklahoma City, Oklahoma or north of Green Island, Nebraska

## REAL Letters To The Editor

Dear Mr. Editor:

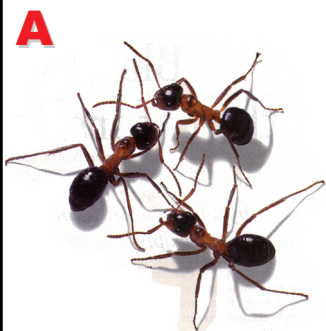

I have just read with great interest your article in the August 1 WHN [Issue 48], and I felt it incumbent on me to write (something I just never do) to tell you that there seems to be a glaring omission in the report of the Blue Ribbon Panel on the Role of Women in Society. Why have they concentrated solely on the evening? Why, any GOOD WIFE should get up at least one hour earlier than her husband to make him a nice, nourishing, hot breakfast to get him off to a good start. After all, isn't breakfast the most important meal of the day? And while preparing breakfast, in her spare time, any GOOD WIFE should press her husband's suit and iron a fresh shirt. It is, after all, very important that he make a good impression on the work staff-boss so he can get a good raise so he can go on that long hunting (sic) trip in the fall.

**Editor's Response:** The Blue-Ribbon Panel agrees with your comments and will be reconvening at *Hooter's Conference and Beach Volleyball Center* to review the data and recommend appropriate changes to their report. We will cover this meeting and report on its outcome at a later date.
